

# NIKA LOGISTICS

## NIKA LOGISTICS

We provide international road haulage services all throughout Europe. Our dispatchers have many years of experience and are ready to meet the requirements of our customers. We maintain high quality of our services thanks to state-of-the-art, reliable and environmentally friendly technology. Our fleet includes VOLVO, DAF and SCANIA vehicles that meet the strictest environmental standards EURO 5 and EURO 6. The average age of our vehicles is 5 years, which ensures high reliability of services provided to our customers. Satellite on-line monitoring of all vehicles is a matter of fact in international road haulage.

## Company MILESTONES

- **1997** Foundation of the company.  
The company operates 8 vehicles and owns a service shop in Nové Holešovice.
- **1999** Sale to a new owner.  
The company was sold to EXCALIBUR ARMY spol. s r. o. and has 10 vehicles.
- **2001** Moving to Hrochův Týnec.  
Due to lack of capacity in its former premises, the company moved to Chrudim and created a branch in Hrochův Týnec; the fleet consists of 45 vehicles.
- **2005** Acquisition of ČSAD Pardubice.  
The company keeps growing, we purchase ČSAD Pardubice and build a new branch in Vrdu. The fleet now contains over 100 vehicles.
- **2008** Reconstruction of the branch in Hrochův Týnec, we have over 200 employees.  
We own 160 vehicles, 20 construction and mining machines. We passed certification in accordance with ISO 9001-2000.
- **2010** Expansion of the fleet by another 10 vehicles.
- **2011** Purchase of 37 new vehicles.  
A new branch in Tovačov (8 km from Olomouc) opened. In November we opened a center in Liberec, operating a logistics warehouse and transport.
- **2012** Purchase of 8 new vehicles.  
We started mining and selling sand. We successfully passed audit for ISO 9001:2008 – storage and logistics.
- **2013** Opening of a logistics center in Opočíněk (12,000 m<sup>2</sup>).  
Purchase of 11 vehicles.
- **2014** Successful certification in accordance with GMP+ for transport of feeds and foodstuffs. Purchase of 22 new vehicles.
- **2015** Purchase of 53 new vehicles.  
We are currently operating over 220 vehicles, and have recently built a new logistics center in Liberec.

## Domestic road haulage

We have over 120 vehicles of different types and tonnage for domestic road haulage. We provide fast and reliable transport of various types and quantities of goods, including ADR class 1, to your desired destination within the Czech Republic. All our vehicles are monitored using GPS. The quality of our services is annually certified in accordance with **ISO 9000 and GMP+ standards.**

## MARITIME transport

Our company is a significant provider of maritime transport services. We specialize in transport of Full Container Load (FCL), less-than-container load (LCL) and wheeled vehicles on Ro-Ro ships. Our ship transport services are provided via renowned ship operators, which allows us to guarantee high-quality service throughout the whole transportation.

### For maritime transport we mostly use the following seaports:

Hamburg, Bremerhaven, Antwerp, Livorno, Koper and other. Transport to these ports is realized via combined transport services, depending on the type of cargo: collection using trucks, containers to the terminal and then rail transport, transport of vehicles on low-bed trailers to docks, and others. During reloading of wheeled vehicles and general cargo to the ship, our team is available on-site and is responsible for the high quality of provided services.

### We provide the following maritime transport services:

- Less-than-container load (LCL)
- Full Container Load (FCL)
- Ro-Ro transport (transport of vehicles and machines on their own wheels)
- Oversize cargo
- IMO transport – dangerous goods
- Transport of military materials and materials subject to export license
- Securing of charter vessels
- Dispatch of shipments, inspection in the port
- Issuing of certificates based on the Bill of Lading (B/L)
- Sale of containers
- Issuing of IMO documents
- Shipment insurance

WE LOVE COMBINING

## AIR transport

We organise transport of small or large-volume shipments via renowned airline companies.

**We provide the following air transport services:**

- Picking up of a shipment, repacking if necessary
- Transport to the airport
- Complete customs proceedings
- Air transport
- Delivery of goods to the desired destination
- Organisation of charter flights – lease and organisation of the entire aircraft, including the securing of necessary transport documentation and thorough cooperation via expert provision of services and handling at individual airports
- Cost optimization (suggesting the most suitable type of aircraft for the given transport and destination)
- Shipment insurance

We provide transport of general goods as well as of dangerous goods (DGR).

**Dangerous goods include:**

- Weapons and ammunition
- Explosives
- Combustibles and all substances with a UN number
- Chemicals and poisons

## RAIL transport

Our company provides transport of individual wagon loads, groups of wagons and block trains, both within domestic and international haulage markets.

We have direct contracts with national carriers as well as private carriers in the Czech Republic and abroad.

**Scope of transport services:**

- National and international transport of wagon loads
- Transport of wheeled cargo and oversize cargo
- Transport to/from seaports
- Transport of dangerous goods
- Container transport
- Reloading of goods in ports
- Reloading of goods in transit stations with change of the track gauge
- Tracking of shipments
- Loading and securing of shipments
- Reloading of shipments from trucks to rail wagons and the other way round
- Transport of cereals in special wagons
- Lease of UACS railroad cars, etc.
- Customs clearance of shipments
- Shipment insurance

## EARTHWORK

We have many years of experience with various types of earth and mining work.

For example, we provide complex realization of surface hardening, demolition, road base and roads. We have 20 construction and mining machines, as well as **Genesis DemoPro 650** combined shears and a **krupp demolition hammer**. In combination with tipper trucks we are capable of providing comprehensive services to construction companies. We also secure the delivery of bulk construction materials, including their stockpiling.

 **350 000 t**

WE TRANSPORT OVER 350,000 TONS OF BULK MATERIALS PER YEAR

## **MINING** of sand and aggregates

Since 2012 we have provided sand mining and offer washed sorted sand and aggregates.

### **We offer the following fractions:**

- 0 – 4 mm, washed
- 4 – 8 mm, washed
- 8 – 16 mm, washed
- 16 – 125 mm, unsorted

We transport the purchased products using our own vehicles or alternatively, you can use your own means of transport.

We are also happy to take care of small customers who can load aggregates freely in the designated area.

## OVERSIZE LOAD transport

We provide transport of oversize and heavy loads of up to 70 tons all over Europe.

We also take care of the transport permit, cargo insurance, accompanying vehicles and other requirements. The transported cargo includes, for instance, military technology, bridge structures, concrete pre-fabricated elements, construction machinery, cranes, etc.

# 220 ×

200 VEHICLES FOR ADR AND 20 VEHICLES FOR EX III TRANSPORT

## ADR

Our services include domestic and international road haulage in less-than-container load (LCL) ADR mode for all classes except for class 7 – Radioactive substances.

Aside from basic ADR, our car fleet includes EX III vehicles for the transportation of ammunition, weapons and class-1 explosives with qualified drivers including training for transportation to Germany. Your requests and queries will be handled by a team of highly trained specialists led by DGSA consultants.
